Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 to 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beguinot et al (US Patent 5,855,846) for the reasons set forth in the previous office action dated 12-2104.

Response to Arguments

3. Applicant's arguments filed 6-22-05 have been fully considered but they are not persuasive. It was submitted that Beguinot alloy contains W, Mo and B as additional alloying elements excluded from the claims reciting "consisting of". It is the examiner's position that prior art claim 1 in column 10 discloses Mo+W/2 having a lower limit of zero if Cr is more than 1.5%; hence claims would not patentably distinguish over prior art. Moreover even though prior art alloy additionally contains 0.002 to 0.015% B to improve quenchability, such would not be a patentable difference because it has held that to omit an alloying element with the consequent loss of its known function, as applicant has done, would not be a patentable distinction, see *In re Wilson et al.*, 153USPQ740.

4. The unapplied references have been cited to further depict the state of the art in tool steel alloys and process of treating molten metal with vacuum degassing and argon shield..

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
